

ARUNYA PULENTHIRAN

Sri Lanka | +94 74 165 8322 | arunyapulenthiran@gmail.com

PROFESSIONAL SUMMARY

STEM-focused early-career candidate with interests spanning web development, UI/UX design, Python, data, AI, mathematics, and technology. Builds practical projects to strengthen programming, analytical thinking, and digital design skills. Combines structured problem-solving with creative visual work and develops technical skills through hands-on projects, coursework, and independent learning.

CORE TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript, Python

Design & Creative: Figma, Canva, Adobe Photoshop, CapCut

Development Tools: Git, GitHub, Visual Studio Code

Technical Interests: Web Development, UI/UX, Python & Data, AI & Technology, Mathematics

Strengths: Analytical thinking, problem-solving, creativity, attention to detail, independent learning

SELECTED PROJECTS

Math Toolkit — Interactive Web Application

- Developed a web-based collection of practical mathematics tools using HTML, CSS, and JavaScript.
- Includes calculators for matrix addition, quadratic equations, sequences, and statistics.
- Designed interactive browser-based utilities that connect mathematical concepts with practical digital tools.
- Published through GitHub Pages and included in the personal portfolio.

Python Practice — Programming Project Collection

- Built beginner Python projects to practice programming logic and problem-solving.
- Projects include a Personal Expense Tracker, Number Guessing Game, Student Grade Calculator, and To-Do List.
- Used small practical applications to strengthen core Python concepts through hands-on practice.
- Maintained and showcased the work through GitHub and the personal portfolio.

EDUCATION

G.C.E. Advanced Level — Mathematics Stream: Sri Lanka | 2026

- Combined Mathematics • Physics • Chemistry

G.C.E. Ordinary Level: Sri Lanka | 2024

- 6 A passes • 3 B passes

COURSES, CERTIFICATIONS & LEARNING

IBM SkillsBuild: Foundations of Artificial Intelligence — Completion Certificate | September 2026

Microsoft Learn: 17 badges and 3 trophies across Microsoft learning activities

University of Moratuwa Open Learning: Python for Beginners; Web Designing

University of Colombo: Astronomy Certification

AAT: Level 1 completed

Royal Institute: English Language Programme

PORTFOLIO & ONLINE PROFILES

LinkedIn: linkedin.com/in/arunya-pulenthiran-b65893421

ADDITIONAL SKILLS & INTERESTS

- Mathematics and STEM learning, with an interest in applying analytical thinking to technology.
- UI/UX and visual design, including interface concepts and digital graphics.
- Continuous self-directed learning through online platforms, coursework, and personal projects.
- Violin — 8+ years of practice, demonstrating long-term discipline, consistency, concentration, and commitment to learning.
